“Make your dreams come true”

There is nothing- absolutely nothing-half so much worth doing, than simply messing about on boats.

Sailing: the fine art of getting wet, and becoming ill while slowly going nowhere at great expense.

Catamaran: A boat design that involves the use of two joined hulls.

Its chief features are that it is twice as likely to hit something or develop a hole or leak, but will generally take double the amount of time to sink after having done so.

Centreboard: Permanently jammed moveable keel

Yawl: Southern version of Ahoy.

Yacht Broker: Form of Coastal marine life found in many harbours and waterways, generally thought to occupy a position on the evolutionary scale to be above Algae, but below the squid.

Marina: Commercial dock facility. Among the few places under Admiralty Law, where certain forms of piracy are still permitted. Most Marinas have up to date facilities for the disposal of excess cash that may have accumulated on board, that otherwise may cause a fire hazard.
